

Capacity Enhancement Grant Report 2019-2020

The 2019-20 academic year has covered several developments that were originally proposed and included additional items arising from class suspensions, which were both supported by the Capacity Enhancement Grant.

Following last year's development plan, the following tasks under Phase 1 have been completed:

- (1) Migration of data from Denbigh to iSAMS
- (2) Integration with OpenApply for admissions, ManageBac for cross curricular activities and BoardingWare for residences
- (3) Online and inhouse trainings of various iSAMS Managers for teachers and admin support

However, Phase 2 of the evaluation and review of our current eLearning platforms was put on hold to support a full scale of distance online learning during the period of class suspensions from February to June.

To facilitate different distance online learning approaches, the following items have been acquired:

- Zoom professional accounts
- Padlet plan
- Screencastify
- Bluetooth microphones
- 4K Webcams
- Smart pads
- Capture Box
- Interactive whiteboard systems
- Upgraded WiFi package, including on-site network health check
